

Technical Datasheet

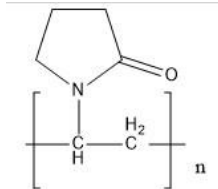

Production Name: Polyvinylpyrrolidone PVP K30

CAS NO: 9003-39-8

MF: CH₄

MW: 16.04246

Molecular Structure:

Product image

Specification list

Appearance	White powder
MF	CH ₄
MW	16.04246
PH	3.0-5.0
Density	1,69 g/cm ³
Storage condition	2-8°C
Melting point	>300 °C
Boiling point	90-93 °C

Package: 25kg/Drum

Application:

It can be medicine and health, food processing, Daily cosmetics,detergent,textile printing and dyeing,Paints and pigments,high molecular surfactant.
