

Product Description-TDS

Product Name: 4-Chloro-2-nitrobenzoic acid

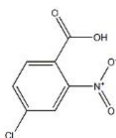

Product Information

CAS No: 6280-88-2

Molecular Formula: C₇H₄ClNO₄

Molecular Weight : 201.56

Molecular Structure:

Other Items :

| Item | Specifications |
|---------------|------------------------------------|
| Appearance | Yellowish white crystalline powder |
| Content | ≥99% |
| Melting point | 143 °C~145 °C |
| Moisture | ≤0.5% |

Package:

25kg/ Fiber Drum

10tons/ 20' FCL

Application:

Used as intermediates in medicine and organic synthesis.
